

DIENST OPENBARE SCHOLEN • CURAÇAO

The Future of School Workforce Management.

A secure, mobile-first attendance platform that gives every teacher a simple way to check in
— and gives school leadership real-time visibility across Curaçao's public schools.

An official platform of the Ministerie van Onderwijs, Wetenschap, Cultuur & Sport

A Better Way to Track Attendance.

The way schools record attendance today is slow, manual, and error-prone. Here is exactly what the DOS platform replaces — automatically.

TODAY

- Paper sign-in sheets, prone to errors
- Hours calculated by hand
- Payroll delays and inaccuracies
- No real-time oversight for directors
- Heavy administrative burden

WITH DOS

- Tap-to-check-in from any phone
- Automatic, accurate hour tracking
- Payroll-ready exports, instantly
- Real-time director dashboards
- RFID-verified & completely paperless

One Connected Educational Network.

Every attendance event flows through a secure platform that gives schools, directors, and DOS leadership a shared source of truth across Curaçao's public education system.

- **One teacher** checks in
- **One school** confirms
- **One director** sees it live
- **One platform** updates
- **One payroll** gets accurate data

Simple For Teachers. Powerful For Schools.

A secure attendance process that takes only seconds — while automatically updating the entire DOS workforce platform.

- Teacher arrives at school
- Opens the DOS mobile app
- Taps their phone on the RFID reader
- Identity is verified securely
- Attendance is recorded instantly
- Director dashboards update automatically
- Payroll-ready records are generated

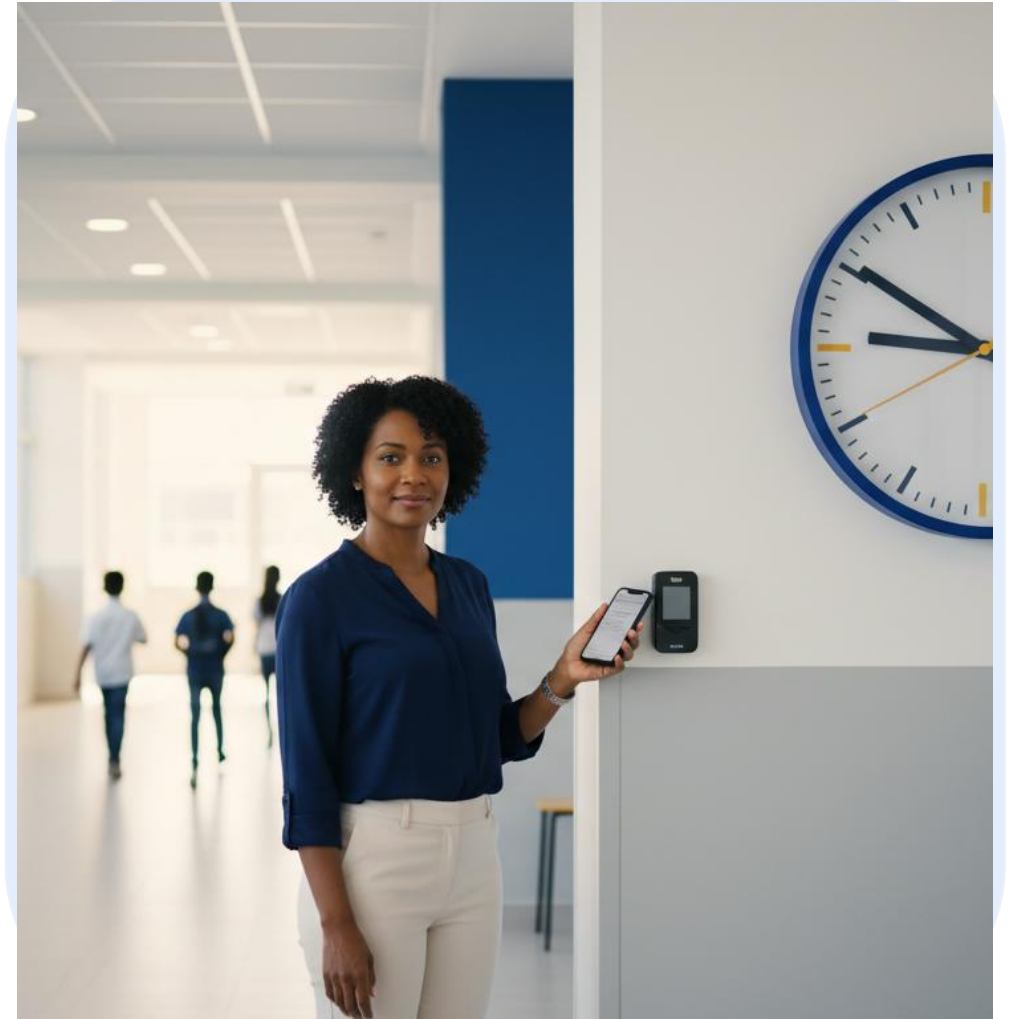

8 seconds · average check-in time

Late Arrival Detection.

When a teacher checks in late, the platform flags the arrival, calculates the delay, and notifies administration — instantly, with zero manual work.

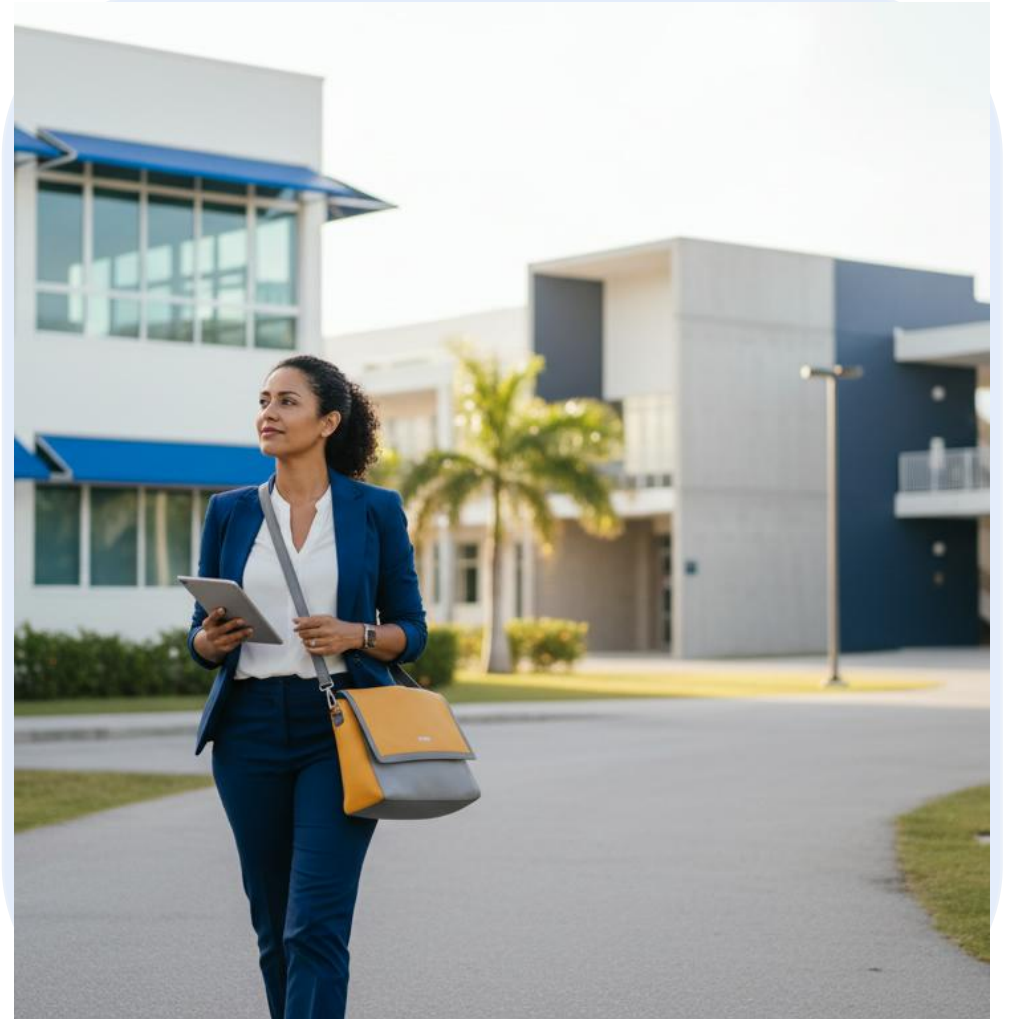

- **RFID Verified** — identity confirmed
- **Late Arrival Detected** — delay calculated live
- **Director Notified** — push sent instantly
- **Attendance Synced** — dashboard, real-time
- **Payroll Updated** — auto-adjusted

One Teacher. Many Schools.

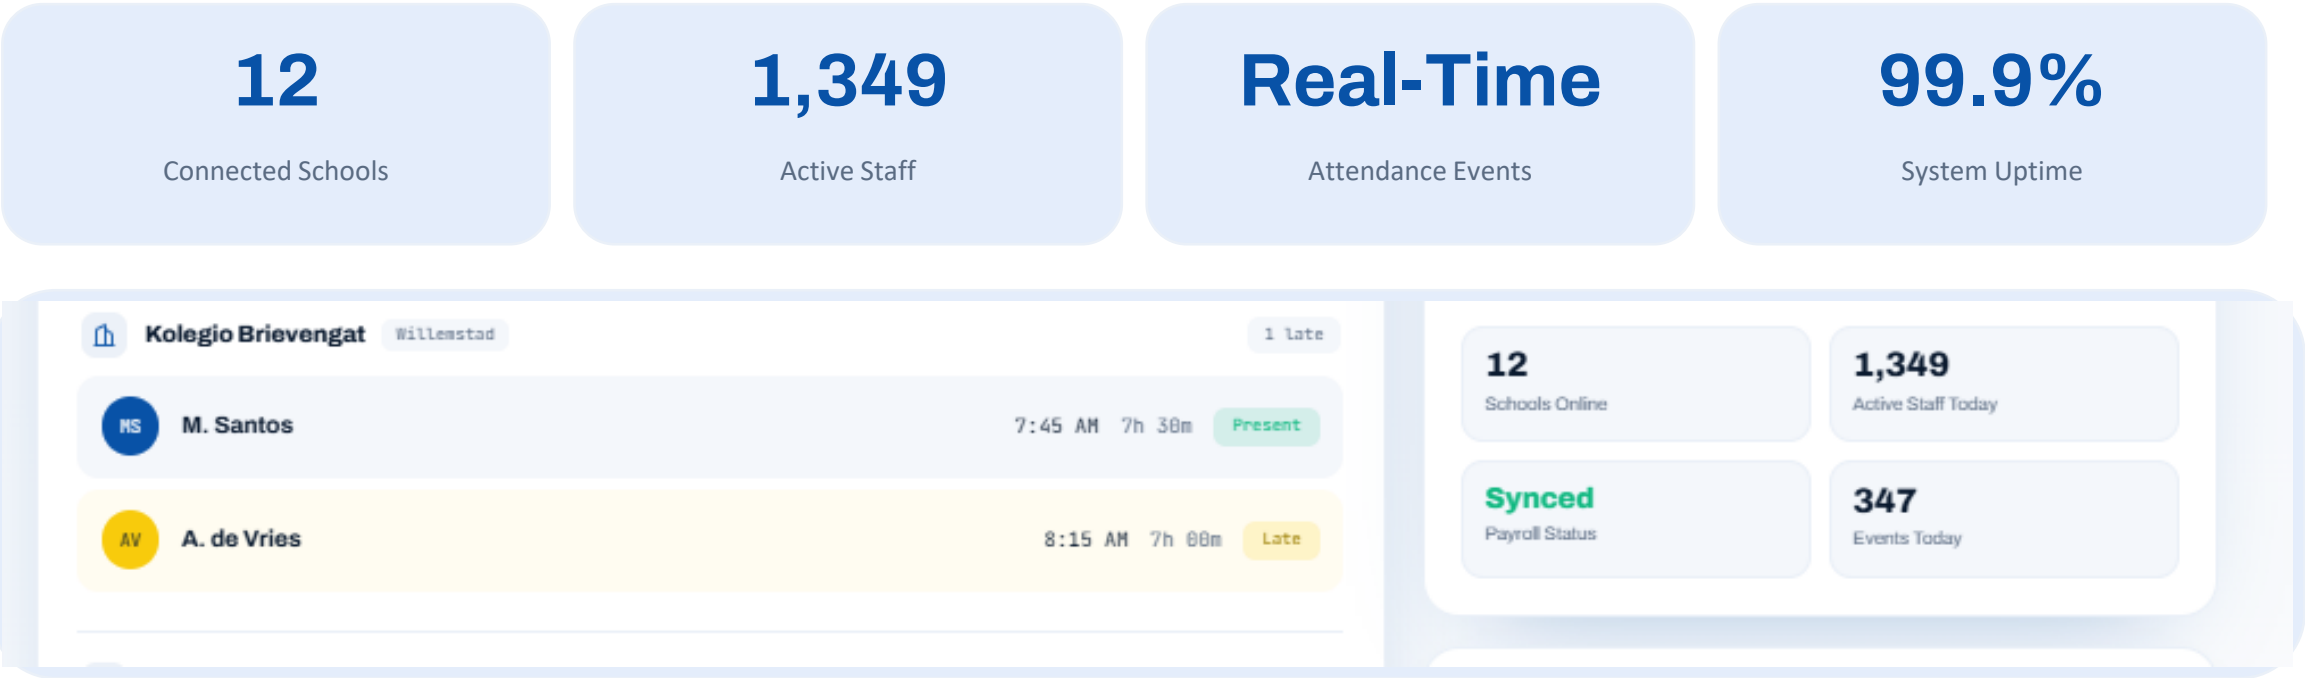

The platform automatically detects each campus, keeps separate attendance logs, and unifies everything into one DOS report — no manual switching.

- **Automatic Campus Detection** — knows which school, instantly
- **Separate Attendance Logs** — each campus kept distinct
- **Unified DOS Reporting** — one report across every school
- **Real-Time Synchronization** — updates the moment it happens

Your Entire Network. One View.

Every teacher, every school, every attendance event, and every payroll-ready hour across the DOS network — visible from a single command center.

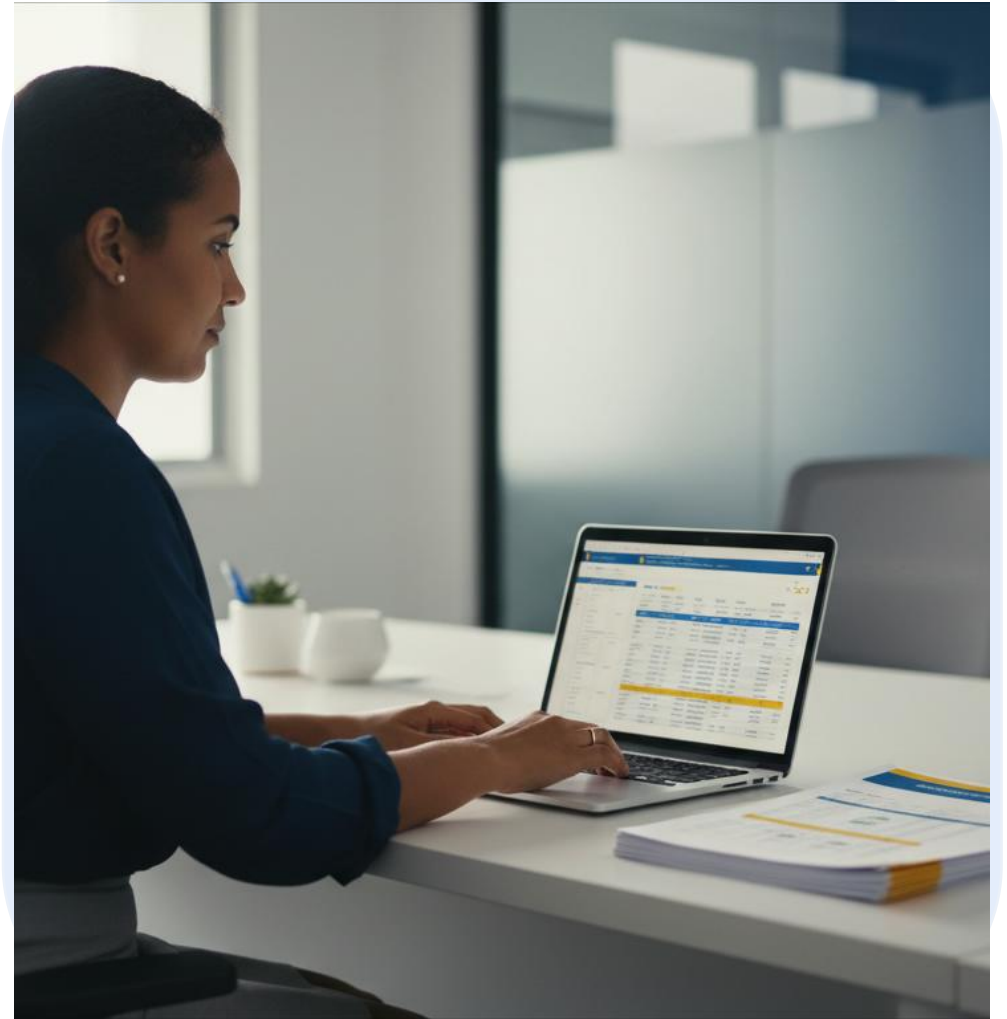

Attendance In. Payroll Out.

Every check-in the platform records automatically becomes a verified, payroll-ready record — no spreadsheets, no manual calculation, no chasing hours.

- Teacher checks in — time captured
- Synced to the DOS cloud platform
- Hours calculated instantly
- One-click SOHO payroll export
- Payroll-ready — zero manual work

Manual: 8–12 hours

With DOS: 5 minutes

School Ecosystem Expansion.

Attendance is where it starts — not where it ends. Built on attendance data, the platform grows into the system that runs workforce operations for every DOS school.

DOS Attendance Platform

- Teacher Check-In
- RFID Verification
- Attendance Tracking
- Director Dashboard

Payroll Integration

HR Management

School Analytics

Multi-School Management

Leadership Reporting

Operational Oversight

Real-Time Data Flow.

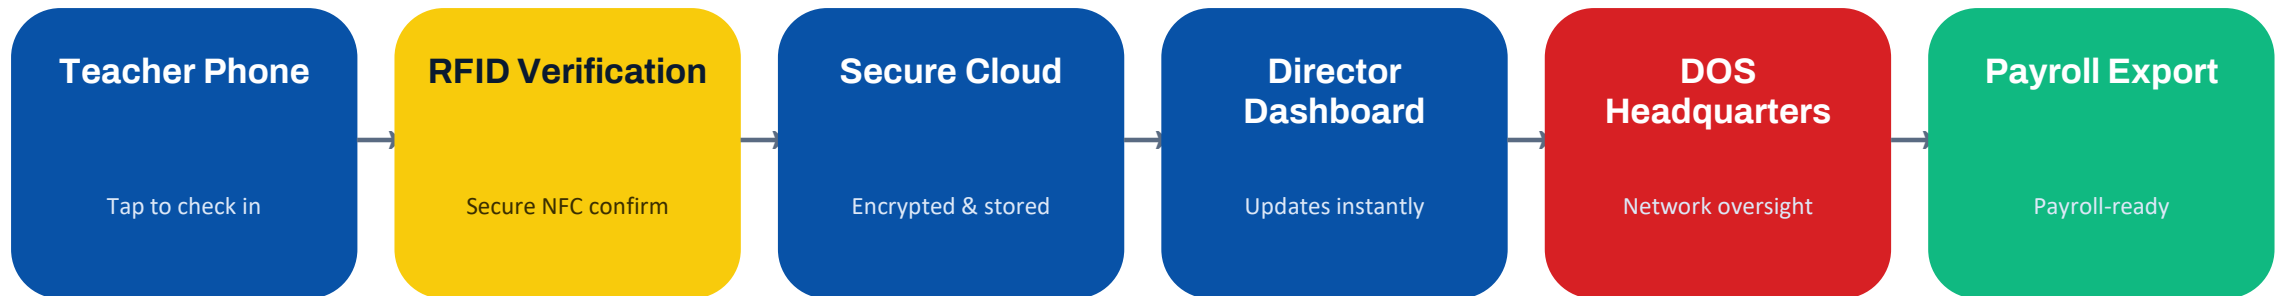

Watch one attendance tap travel securely through every layer of the platform — from a teacher's phone to payroll — in real time.

■ AES-256 Encryption

■ 99.9% Uptime

■ 0.3s Avg Latency

■ Real-Time Sync

Encrypted end-to-end. Synced in real time.

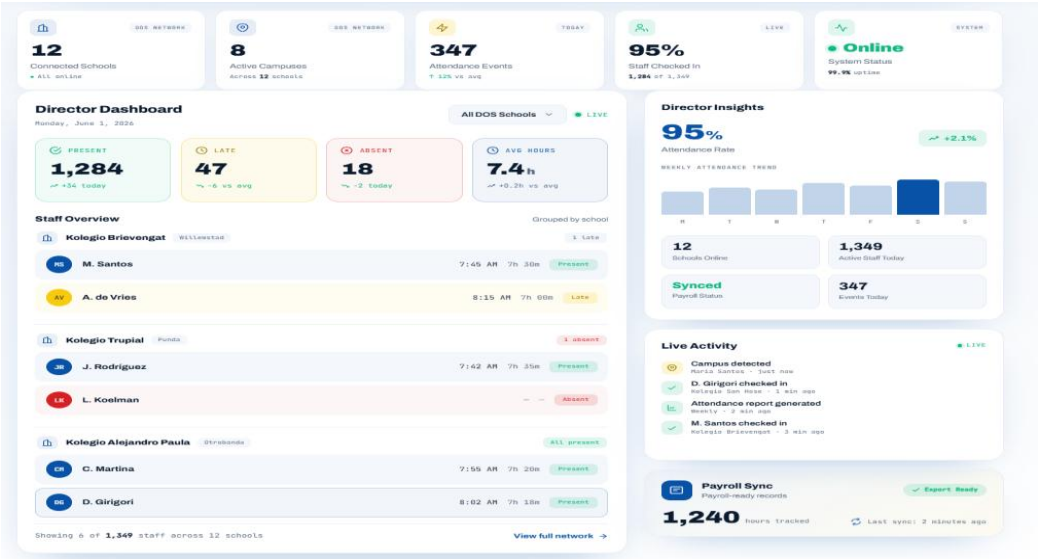

The DOS Platform In Action.

Designed for teachers, administrators and school leadership.

Teacher Experience — mobile check-in

Administrator Experience — live dashboard

Rolling Out Across Curaçao.

A realistic path from a handful of pilot schools to every public school on the island — the DOS network coming online, stage by stage.

01

Pilot & Foundations

4 schools

First pilot schools, readers installed, staff trained

02

Adoption & Impact

10 schools

Teachers adopt tap check-in, accuracy improves

03

Insight & Payroll

18 schools

Real-time visibility, automated payroll integration

04

Island-Wide

25+ schools

Scaled to every DOS school, one unified platform

Before DOS: paper & guesswork, 8–12h payroll, delayed data, heavy admin. **With DOS:** 100% verified, payroll in minutes, real-time, automated.

This Is Bigger Than Attendance.

DOS is building the digital infrastructure for the future of education across Curaçao — and it starts with a single check-in.

Every School Connected.

Every Teacher Accounted For.

Every Decision Informed.

Powered By DOS.
